Today we're talking to Canadians about some different issues concerning the communities we live in.

1. People belong to different types of “communities,” and we also identify more strongly with some of the communities we belong to than we do with others.

Please indicate to what extent you personally identify with each of the following different communities.

(If you do not belong to some of these in the first place, then just indicate that.)

[ROWS – RANDOMIZE]

- The community where you grew up
- A religious or spiritual community
- People who share an interest in the same field of work
- People from a similar ethno-cultural background
- People who share a common life experience (such as being LGBTQ, living with a disability, being a person of colour, etc.)
- Fans of a particular sports team
- People involved in the same community organization or volunteer group
- People you know from school/college/university alumni group

[COLMUNS]

2. Now, thinking about the following geographic communities you yourself live in, how would you describe your sense of belonging to each?

3. Which of these geographic communities you live in is MOST important to your own personal identity?

[ROWS – KEEP THIS ORDER]

4. And, how would you rate the overall quality of life in each one?

Let’s use a 1 to 10 scale, where a “1” means you would describe the quality of life there as "terrible" and a “10” means it is "excellent". You can, of course, choose any number in between 1 and 10 that most closely reflects your view.

6. Lots of factors go into creating a good city or community. Here is a list of several different ingredients. Please review the list and select the 3 that are most important to YOU personally in terms of what makes a good place to live.

Low poverty levels

7. Now, we’d like to ask you about your own specific community -- and here, by "community", we would like you to consider the city or town you live in. Looking at the same factors from the previous question, please rate the following aspects of your own city or town.

(If you live in a very rural area and not in a city or town, please respond based on your municipality or county).

Let’s use the same scale as before to rate these different things in your city or town, where a “1” means "terrible" and a “10” means "excellent". You can, of course, choose any number in between that most closely reflects your view.

[ROWS – RANDOMIZE – Keep same randomization as the previous question]

8. And, which 3 of these specific issue areas would you say are the BIGGEST PRIORITIES for action in your own community? (Again, referring to your own city/town/municipality.)
