Regional sample sizes are unweighted. All other sample sizes, including column totals, are weighted to census data. Cells containing "" are statistically zero, though at least one response was received. Blank cells indicate zero responses received. Sample sizes below 100 should be interpreted with caution.

Q1. It has been suggested by some that we establish a standard 30-hour work week – also known as a four-day work week - to spread work among more people. Do you think this is a good idea?
