

### **Part 3 – Coronavirus Vaccine**

Now we have a few questions about the COVID-19 outbreak in Canada.

**Q1.**

**Base=All**

**[single choice grid]**

How concerned are you about each of the following...?

**[rows]**

[T] You personally becoming sick from this new coronavirus

[T] Friends or family becoming sick

[T] People in your community becoming sick

**[columns]**

Not at all concerned

Not that concerned

Moderately concerned

Very concerned

**Q2.**

**Base=All**

**Single choice**

Overall, thinking about restrictions that have been put in place in the community where you live to prevent the coronavirus from spreading, do you think these restrictions go too far, don't go far enough, or are about right?

Go too far

Don't go far enough

Are about right

**Q3.**

**Base=All**

**Single choice**

Lately there have been news reports about scientists trying to develop a vaccine for this coronavirus. When do you personally think such a vaccine against the coronavirus would be widely available to the public?

Before the end of 2020

At some point in 2021

2022 or later

Never

Don't know/Can't say

**Q4.**

**Base=All**

**Single choice**

If a vaccine against the coronavirus became available to you, would you get vaccinated, or not?

Yes, I would get a vaccination as soon as one became available to me

Yes, I would eventually get a vaccination, but would wait a while first

No, I would not get a coronavirus vaccination

Not sure

**Q5.**

**Base=all**

**Single choice grid**

For each statement, please indicate whether you agree or disagree:

[rows][randomize]

Life in my community won't go "back to normal" until most people are vaccinated

I would get a vaccine to protect my family

It is vital that people with chronic health conditions, such as asthma or diabetes, get vaccinated

We should listen to doctors who recommend vaccines

I wouldn't have time to get a COVID-19 vaccine

I'd be concerned about getting infected with the coronavirus from a vaccine

I'd be concerned about side effects from a coronavirus vaccine

A coronavirus vaccine won't be effective

The coronavirus outbreak is not as serious as some people say it is

[columns]

Strongly Agree

Agree

Disagree

Strongly disagree

**Q6.**

**Base=All**

**Multi-choice**

If a coronavirus vaccine does become available, in which of these scenarios or places, if any, do you think a vaccination should be mandatory?

(Choose all that apply)

At workplaces (job sites, offices, restaurants, retail, etc.)

For healthcare workers

In extended care homes

Public events or large gatherings (concerts, events with more than 50 people, etc.)

Schools

Other: Specify \_\_\_\_\_  
None of the above [fixed, exclusive]
