Regional sample sizes are unweighted. All other sample sizes, including column totals, are weighted to census data. Cells containing "" are statistically zero, though at least one response was received. Blank cells indicate zero responses received. Sample sizes below 100 should be interpreted with caution.

QF11. Suppose some political event triggers a federal election this fall. Given COVID-19, how comfortable would you be going to a polling place to cast your ballot as you normally would?
