Sample Size (Has/had loved one in long-term care within past year)	816	113	101	126	281	117	78	390	426	207	280	329	93	138	159	115	142	170	204	267	270	248	296	273

Regional sample sizes are unweighted. All other sample sizes, including column totals, are weighted to census data. Cells containing "" are statistically zero, though at least one response was received. Blank cells indicate zero responses received. Sample sizes below 100 should be interpreted with caution.

Q1. In the last year, is there (or was there) a family member or close friend of yours living in a long-term care facility (LTC)?
