

COVID-19 Post Pandemic

July 9-13, 2021

Some questions already released. Others are held for future release.

QA4.

Base=All

Single choice

When a vaccine against the coronavirus becomes available to you, will you get vaccinated, or not? If you have been vaccinated, please indicate this below.

Yes, I will get a vaccination as soon as one became available to me

Yes, I will eventually get a vaccination but will wait a while first

No, I will not get a coronavirus vaccination

Not sure

I have already received one vaccination shot

I have been fully vaccinated – no more shots required

QA5.

Base=Received Two Doses

Single choice

You've said that you received both doses of the COVID-19 vaccine. Did you receive the same brand for each, or was the second dose different from the first?

Same both times

Had a different brand the second time

QA6.

Base=Received a different brand for second shot

Single choice

And how did you feel receiving a different brand for your second dose?

Totally comfortable

Fairly comfortable

A little uncomfortable

Very uncomfortable

QA7

Base=One or two doses in QA4

Multi choice

Okay, and now a few questions about your own vaccination experience(s). As you were likely told by those who administered your shot(s), some side effects are quite common. Did you experience any side

effects from your vaccination? Please select all the side effects, if any, that you experienced. If you have received two doses, please think about your most recent one.

[Randomize]

Sore arm
Headache
Fever
Chills
Fatigue
Joint pain
Muscle aches
Difficulty breathing
Skin reaction – swelling, redness
Nausea
[Fix] none of these

QA7.

Base=Received both doses AND experienced side effects

Single choice grid

And overall, give us a sense of how mild or intense your reaction was after each dose. Was your reaction:

Mild – felt it a little, but no impact on my day-to-day activities

Moderate – definitely felt it, slowed me down, and had some impact on my daily routine

Severe – hit me really hard, I had to go to bed and/or it massively disrupted my daily routine

First Dose

Second Dose

QB1.

Base=Have received at least one dose in QA4

Single choice

Thinking about when you've been fully vaccinated (or if you already are) - and you've had time to build up your immunity - how likely is it that you will spend time in person with people who are unvaccinated?

Very likely, once I'm protected

Pretty likely

Unlikely

Very unlikely, I'm going to be extremely careful who I am around

QB2.

Base=All

Single choice grid

Do you feel it's OK to ask others about their vaccination status?

Totally fine
Not OK, it's personal
Depends on who it is

QB3.

Base=Totally fine and depends in QB2.

Single choice grid

And how comfortable are you, yourself, asking other people about their vaccination status? For each, please indicate how you would feel

Family/friends
Coworkers/Acquaintances
Strangers

Totally comfortable
Fairly comfortable
A little uncomfortable
Very uncomfortable
Don't care to ask

QB4.

Base=All

Single choice

Broadly, thinking about resuming life and activities you did before the pandemic, which best describes the way you are approaching this:

Resuming everything I did, no real hesitation
Being more cautious than before; returning to most, but not all activities
Going slow – not planning to resume pre-pandemic activities for a long time yet

QB5.

Base = All

Single choice

And, thinking about your resumption of pre-pandemic activities, such as returning to work at an office, seeing friends, attending community events, etc. does this prospect make you feel:

Very excited
More excited than anxious
More anxious than excited
Very anxious

QB6.

Base=All

Single choice grid

There's been some discussion recently about whether people in Canada should have to show proof they have received at least one dose of a COVID-19 vaccine to attend or participate in different things. These discussions usually refer to "vaccine certificates" or "vaccine passports". They're just referring to proof of vaccination.

For each of the following scenarios or places, do you agree or disagree that proof of vaccination should be mandatory?

At your place of work

At public places in your community i.e., restaurants, malls, movie theatres, churches etc.

To attend a public event or large gathering (concerts, events with more than 50 people)

To board a commercial airline flight

To travel to the US

To travel internationally (excluding the US)

Strongly agree

Agree

Disagree

Strongly Disagree

Not sure/Can't say
