Climate change is a fact and is mostly caused by human activities (emissions, deforestation, industrial activities, etc.)

Climate change is a fact and is mostly caused by natural changes and cycles

Climate change is a theory that has not yet been proven

Not sure

**QC2 (T).**

**Base=All**

**Single choice**

How much of a threat, if any, do you think climate change poses for planet Earth? Is it:

A very serious threat

A serious threat

A more minor threat

Not really a threat at all

Not sure

**QC3. [T]**

**Base=All**

**Single choice**

When you think about the Liberal government's record under Prime Minister Justin Trudeau on climate change, would you say it has been:

**[This order]**

Doing too little to address climate change

Pushing too hard to address climate change

Taking a well-balanced approach to climate change

**QC4.**

**Base=All**

**Single choice**

As you may have heard, world leaders are currently taking part in COP26, a conference billed as a "make or break" opportunity for nations to come together to reduce emissions and reverse the effects of climate change. How closely have you been following news coverage of this conference?

Following it in the news and discussing it with friends and family  
Seeing some media coverage and having the odd conversation about it  
Just scanning the headlines  
Haven't heard anything about it until now

**QC5**

**Base=All**

**Single choice**

Based on what you have read, seen, or heard, how confident are you that the major global emitters will make meaningful progress on controlling/reducing their emissions during this conference?

Totally confident  
Confident  
Not that confident  
Not confident at all  
Really not sure

**QC6.**

**Base=Believe in climate change AKA Exclude Not Yet Proven and Not sure in QC1**

**Single choice**

Overall, do you think humans will actually be able to reverse the effects of climate change before it's too late?

Yes, absolutely  
Yes, probably  
Probably not  
Absolutely not  
It's already too late  
Don't know
