Regional sample sizes are unweighted. All other sample sizes, including column totals, are weighted to census data. Cells containing “*” are statistically zero, though at least one response was received. Blank cells indicate zero responses received. Sample sizes below 100 should be interpreted with caution.

Q1. Prior to reading the information we've just shared above, how familiar have you been with this type of event – have you seen or heard of cyberattacks happening in Canada?
