Regional sample sizes are unweighted. All other sample sizes, including column totals, are weighted to census data. Cells containing “*” are statistically zero, though at least one response was received. Blank cells indicate zero responses received. Sample sizes below 100 should be interpreted with caution, because its small population precludes drawing discrete samples over multiple waves, data on Prince Edward Island is not released.

Q01. Based on whatever you know and on your own impressions, would you say the current gun laws in Canada are too strict, not strict enough, or about right?

Total	Province													Cities							Geo Type		Gender		Age					HHI				HHI (Fine)					Education						2021 Fed Vote
