Regional sample sizes are unweighted. All other sample sizes, including column totals, are weighted to census data. Cells containing "4%" are statistically zero, though at least one response was received. Blank cells indicate zero responses received. Sample sizes below 100 should be interpreted with caution.

QB1. The Bank of Canada has raised the rate five times since the beginning of the year, from 0% to 2.5% on July 13. How closely have you been following this issue?
