Regional sample sizes are unweighted. All other sample sizes, including column totals, are weighted to census data. Cells containing "N" are statistically zero, though at least one response was received. Blank cells indicate zero responses received. Sample sizes below 100 should be interpreted with caution. Because its small population precludes drawing discrete samples over multiple waves, data on Prince Edward Island is not released.

Q1. Over the past five years or so, would you say there has been an increase, decrease, or no change in the amount of crime in your community?
