Regional sample sizes are unweighted. All other sample sizes, including column totals, are weighted to census data. Cells containing "" are statistically zero, though at least one response was received. Blank cells indicate zero responses received. Sample sizes below 100 should be interpreted with caution.

Q10. Thinking of since last spring, in March 2022, when most COVID-19 restrictions were lifted in Canada, how would you describe your approach to travel outside of the country during the last nine months or so?
