Regional sample sizes are unweighted. All other sample sizes, including column totals, are weighted to census data. Cells containing “%” are statistically zero, though at least one response was received. Blank cells indicate zero responses received. Sample sizes below 100 should be interpreted with caution.

Q2. [Accurate] And what about our neighbour to the south – the U.S. Based on your own experiences, perceptions and opinions, do each of these descriptions reflect an accurate or inaccurate picture of the United States:

Total	Region								Geo Type		Gender		Age			Gender-Age					Age (Fine)					Household Income			Household Income (Fine)					Education			2021 Fed Vote							Language
