Regional sample sizes are unweighted. All other sample sizes, including column totals, are weighted to census data. Cells containing "*%" are statistically zero, though at least one response was received. Blank cells indicate zero responses received. Sample sizes below 100 should be interpreted with caution.

QT1. [Net Positive] Suppose Donald Trump wins the election and is inaugurated for a second term this coming January. Will that lead to a positive or negative impact in each of the following areas?
