Here's some statements people might make about the country today and this coming presidential election. Please indicate whether you agree or disagree with each of these.

[Randomize]

The US should stop providing military support to Ukraine

Those charged or convicted in the January 6th events at the Capitol should be pardoned

Individual states should be free to strictly prohibit access to abortion

There should be a mass deportation of migrants who have come through the southern border

We should ramp up oil drilling on public lands

US Attorneys who don't follow guidance from the White House should be fired and replaced

There's nothing wrong with bringing back Christian prayer to public schools

The US should immediately apply higher tariffs on imports

Donald Trump's character and felony convictions make him unfit for President

The idea of a second Trump term is an absolute nightmare to me

The Democrats are just playing politics with the recent legal actions and court cases against Trump

Donald Trump was the rightful winner of the 2020 election and was cheated out of it

I'm confident this US election this November will be free and fair

Kamala Harris will just continue Biden's failed policies
