

**Angus Reid Institute  
National Report Q3 2025  
Aug. 28 to Sept. 5, 2025**

**Some questions are withheld for future release. Others have already been released.**

**[Textbox]**

Now we'd like to ask you a few questions about you and your loved ones' health. Please note that all your answers will be kept confidential, and data will only be reported in aggregate with other respondents.

**QVaccineIntro.**

**Base=All**

**[single choice grid]**

How concerned are you about each of the following...?

[rows]

[T] You personally becoming sick from COVID-19

[T] Friends or family becoming sick from COVID-19

[columns]

Very concerned

Moderately concerned

Not that concerned

Not at all concerned

**QVaccine3 [T]**

**Base=All**

**Single choice grid**

As a general rule, do you think these vaccinations are effective at reducing the chances of catching these diseases for...?

The individual getting vaccinated

The community as a whole

Very effective

Mostly effective

Not very effective

Not at all effective

**QVaccine4a**

**Base=AB only**

**Single choice grid**

The Alberta government recently announced that it was planning to charge \$100 to most people in the province if they want to receive a COVID-19 vaccine. Seniors, babies under six with compromised immune systems and some other health conditions, health-care workers, and individuals experiencing homelessness will still be able to get the vaccine free of charge.

Overall, would you say you support or oppose this policy by the Alberta government to charge most people who want to receive a COVID-19 vaccines?

Strongly support

Support

Oppose

Strongly oppose

Not sure/ Can't say

**QVaccine4b**

**Base=Everywhere else except AB**

**Single choice grid**

The Alberta government recently announced that it was planning to charge \$100 to most people in the province if they want to receive a COVID-19 vaccine. Seniors, babies under six with compromised immune systems, health-care workers, and individuals experiencing homelessness will still be able to get the vaccine free of charge.

Overall, would you support or oppose your own province charging \$100 to most people who want to receive a COVID-19 vaccine?

Strongly support
